

JMT Mono Championship BULLETIN MRC/2016/1 Piedrafita Air Restrictor

In accordance with championship regulation 5(7) (extract below)

“..In the interests of equalising performance the Monoposto Racing Club reserves the right after every three Championship rounds during the season and giving not less than 14 days’ notice, to specify, review and adjust maximum choke sizes or restrictor plate aperture size for any category or derivative of car within classes in order to equalise performance...”

Following round 3 of the 2016 championship, the air restrictor aperture size for Piedrafita engines will be set at **28.5mm** .

Non regulatory background article with reference to the above
